HIGH QUALITY VISION & SAFETY.  
ANYTIME, ANYWHERE.

# BRONCOFLEX® M Sterile disposable video bronchoscope

## VISION, QUALITY AND SAFETY

**HIGH QUALITY IMAGE** with large depth of field and viewing angle, good colour reproduction.

**ALWAYS READY**, the bronchoscope in its sterile packaging is always ready for use without risk of cross-contamination.

**CONTROLLED OPERATING COSTS**, unlike reusable endoscopes, does not require a repair or disinfection budget.

**ERGONOMIC HANDLE**, functional for precise and safe actions.

**INNOVATIVE VISUALISATION SYSTEM**, with integrated touch screen (SCREENi®), simple connectivity with export of images and videos on USB stick.

## TECHNICAL SPECIFICATIONS

OPTICS	Direction of the field of vision	0°
	Field of view	120°
	Depth of field	3 - 80mm
	Sensor type	Digital
	Lighting system	2 LEDs
INSERTION TUBE	Radius of deflection	9mm
	Upper / lower angle of deflection	160°/130°
	External diameter of insertion tube	5,5mm
	External diameter of the distal end	5,5mm
	Usable length	600mm
OPERATOR CHANNEL	Internal diameter	2,1mm
	Minimum visible length (instrument)	3,5mm
STORAGE	Shelf life	3 years
	Temperature	10°C - 30°C
	Pressure	1.013 bar
	Sterilisation	Ethylene oxide
INSTRUMENT COMPATIBILITY	Endotracheal tube (internal diameter)	≥ 6mm
	Double-lumen endotracheal tube (internal diameter)	≥ 41Fr
	Suction fitting (external diameter)	5 - 9,5mm
VIDEO SYSTEM	SCREENi®	
COMPLIANCE	MDD classification	Class IIa
ORDERING INFORMATION	Broncoflex® S (single use)	005.0009
	Broncoflex® M (single use)	005.0012

## CLINICAL INDICATIONS

- Broncho-alveolar lavage
- Explorations of the pulmonary passages
- Difficult intubation
- Endoscopic assisted tracheotomy
- Sampling
- Foreign body removal
- Management of excess secretions
